TRY IT FREE

Scribe packages include just what you need for a predictable price. Before signing up, try it free for 15 days with no obligation at :

www.scribesoft.com/free-trials.

Scribe has partnered with CData, which offers drivers with connectivity to many different applications. Based on the CData driver for Microsoft Active Directory, this connector provides read and write access to Active Directory. The connector supports dozens of Active Directory objects including Group, Organization, Person, Server and User as well as special operations like Change Password and Reset Password.

BUSINESS BENEFITS:

- Sync information from a directory with leads and contacts in your CRM
- Update users and permissions in another system, including Scribe Online
- Change or reset a user's password on a Microsoft Windows network

TECHNICAL BENEFITS

- Authenticate via username and password
- Perform special operations such as Change Password and Reset Password
- Supports secure connections
